BLUEPEAK FINANCIAL SERVICES

Business Review - Q2 Results / H1 Update

BluePeak has continued expanding its use of the service during the first half of the year. During the most recent quarter the main focus was security, compliance and automation.

The security assessment was completed successfully. MFA was enabled for all administrator accounts. Three additional business processes were automated.

KPI Snapshot

Users	1,142	**Activated accounts**	1,087
Weekly active	812	**Automation executions**	48,620
Failed executions	1.7%	**Avg. execution time**	42 sec
Customer satisfaction	4.3 / 5		

Business Impact

The Finance team estimates that automation implemented during the quarter saves approximately 110-130 working hours per month.

The customer would like to extend automation to Procurement during the next quarter.

Concerns

Several workflows were created directly by business users without review from the central IT team. BluePeak raised concerns about governance and permissions.

There is currently no documented approval process for new production workflows.

Planned Activities

- Governance workshop - August 5
- Define workflow approval process - IT Governance
- Procurement automation discovery - August
- Review permissions model - Security team - target before end of Q3

> Objective check
> Original Q2 objective: reduce failed executions below 2%.
> Current result: 1.7% - Objective achieved.
